Please comment on the proposed alternatives, the purpose and need for the project, the proposed topics of evaluation and the potential impacts and mitigation measures to be considered. Comments must be submitted by the close of business on October 27, 2009.

I support the extension of the CTA Red Line using the Union Pacific Rail Road (UPRR)
route. I support the position that the Red Line extension must reach the Altgeld Gardens/
Calumet River area at 130th Street and that every possible engineering design concept
must be examined to ensure the full extension of the Red Line from 95th Street to 130th
Street. This will insure mass transit access to a transit dependent population, south
suburban communities and nearby industries.

Scoping comments may be submitted via mail, e-mail, fax or the project website with attention to: Jeffrey Busby, General Manager, Strategic Planning, Chicago Transit Authority, P.O. Box 7602, Chicago, IL 60680-7602. Please comment on the proposed alternatives, the purpose and need for the project, the proposed topics of evaluation and the potential impacts and mitigation measures to be considered. Comments must be submitted by the close of business on October 27, 2009.

I support the extension of the CTA Red Line using the Union Pacific Rail Road (UPRR)
route. I support the position that the Red Line extension must reach the Altgeld Gardens/
Calumet River area at 130th Street and that every possible engineering design concept
must be examined to ensure the full extension of the Red Line from 95th Street to 130th
Street. This will insure mass transit access to a transit dependent population, south
suburban communities and nearby industries.

Scoping comments may be submitted via mail, e-mail, fax or the project website with attention to: Jeffrey Busby, General Manager, Strategic Planning, Chicago Transit Authority, P.O. This will insure mass transit access to a transit dependent population, south suburban communities and nearby industries.

The extreme isolation of the community prevents reasonable access and participation in education, jobs, services, and generally getting what you need anywhere else. The time + hassle involved in getting to other places is remarkable and essentially offensive! The Far South Side should be included in the public transit system with the rest of the city.

Please comment on the proposed alternatives, the purpose and need for the project, the proposed topics of evaluation and the potential impacts and mitigation measures to be considered. Comments must be submitted by the close of business on October 27, 2009.

I support the extension of the CTA Red Line using the Union Pacific Rail Road (UPRR)
route. I support the position that the Red Line extension must reach the Altgeld Gardens/
Calumet River area at 130th Street and that every possible engineering design concept
must be examined to ensure the full extension of the Red Line from 95th Street to 130th
Street. This will insure mass transit access to a transit dependent population, south
suburban communities and nearby industries.

Please comment on the proposed alternatives, the purpose and need for the project, the proposed topics of evaluation and the potential impacts and mitigation measures to be considered. Comments must be submitted by the close of business on October 27, 2009.

I support the extension of the CTA Red Line using the Union Pacific Rail Road (UPRR)
route. I support the position that the Red Line extension must reach the Altgeld Gardens/
Calumet River area at 130th Street and that every possible engineering design concept
must be examined to ensure the full extension of the Red Line from 95th Street to 130th
Street. This will insure mass transit access to a transit dependent population, south
suburban communities and nearby industries.

Scoping comments may be submitted via mail, e-mail, fax or the project website with attention to: Jeffrey Busby, General Manager, Strategic Planning, Chicago Transit Authority, P.O. Box 7602, Chicago, IL 60680-7602. I support the extension of the CTA Red Line using the Union Pacific Rail Road (UPRR)

route. I support the position that the Red Line extension must reach the Altgeld Gardens/

Calumet River area at 130th Street and that every possible engineering design concept

must be examined to ensure the full extension of the Red Line from 95th Street to 130th

Street. This will insure mass transit access to a transit dependent population, south

suburban communities and nearby industries.

Red Line Extension

Box 7602, Chicago, IL 60680-7602. **Fax:** (312)681-4297, **Email:** RedExtension@transitchicago.com, **Website:** www.transitchicago.com/RedEIS, **Customer Information:** 1-888-YOUR-CTA (1-888-968-7282), **Hearing & Speech Impaired:** 1-888-CTA-TTY1 (1-888-282-6891), **Transit Information:** 836-7000 from any local area code **RTA TTY:** 312-836-4949

Red Line Extension

Connecting 95th Street Station to 130th Street

RS-258

The purpose of the scoping process is to identify public and agency concerns early in the environmental process, define the issues and alternatives that will be examined in the Environmental Impact Statement (EIS) and facilitate an efficient EIS preparation process. Please PRINT.

Please comment on the proposed alternatives, the purpose and need for the project, the proposed topics of evaluation and the potential impacts and mitigation measures to be considered. Comments must be submitted by the close of business on October 27, 2009.

I support the extension of the CTA Red Line using the Union Pacific Rail Road (UPRR) route. I support the position that the Red Line extension must reach the Altgeld Gardens/ Calumet River area at 130th Street and that every possible engineering design concept must be examined to ensure the full extension of the Red Line from 95th Street to 130th Street. This will insure mass transit access to a transit dependent population, south suburban communities and nearby industries.
