

October 2017 Performance Metrics

The purpose of CTA's monthly performance metrics is to set internal goals for agency performance to encourage improvement and establish accountability. Below is information that may be helpful in understanding the metrics for the month of October including progress that has been made in several metrics. All boxes in green demonstrate that CTA met or exceeded its monthly target and yellow boxes mean that the CTA came within 10% of the monthly performance target. Targets missed by more than 10% are indicated by a red colored box.

In October, the CTA met, exceeded or came within 10% of the agency's monthly internal targets in most categories for bus and rail, including:

- Rail Ridership;
- Bus Ridership;
- Total Ridership;
- Percentage of Big Gap Intervals in Bus;
- Mean Miles between Reported Rail and Bus Vehicle Defects;
- Average Daily Percent of Rail Fleet Availability;
- Average Interior Rail and Bus Clean Inspection scores; and others.

The Rail Delays of 10 Minutes or More missed its target in October due to a variety of factors, but mostly vehicle equipment and interlocking issues. The Average Daily Percent of Bus Fleet Unavailable for Service missed its target in October due to bus fleet maintenance work, which includes work associated with the mid-life overhaul of more than 200 articulated buses to make them like new and provide riders on our busiest routes with a smoother and more reliable ride. Project work was announced in [May](#) and is expected to continue through 2019.
