

'L' System Slow Zone Map

September 30, 2017

Notes

Overall system slow zones in September 2017 were 8.7% for the month, a slight increase from the previous month. The opening of the brand new Washington/Wabash station resulted in a large portion of slow zones being removed from the Loop Elevated tracks. CTA also removed slow zones from both branches of the Blue Line with the completion of track renewal work, as well as the completion of ongoing third rail replacement work on the O'Hare branch. Slow zones were added to the Purple Express Line tracks at Morse, and near the 51st and Roosevelt Green Line stations due to track conditions.
